Portfolio - priyanshiportfolio-two.vercel.app

TOOLS

Figma, Adobe Photoshop, Canva

INTERACTION DESIGN SKILLS

User-Centered Design, User Research, Surveys & Interviews, Card Sorting, User Flows, Wireframing, Mock-ups, Prototyping, Usability Testing, Information Architecture, Design Systems, Style Guides, Design Specifications

SOFT SKILLS

Communication, Collaboration, Time Management, Leading Design Projects, Team Mentorship

LANGUAGES

Hindi — Native
English — Professional

EDUCATION

B.Tech

Avantika University, Indore
2026

Interaction Designer with 1+ year of experience in product design and User Experience (UX) Design, applying user-centered design methods to craft intuitive product experiences from concept to execution. Skilled in translating user research and insights into user flows, wireframes, mock-ups, and interactive prototypes. Experience leading design projects — including mentoring a 20-person design team — and contributing to design systems and style guides for consistency at scale. EXPERIENCE

Interaction Designer (UI/UX) — Internship

Athenura

- Applied user-centered design methods — user research, usability testing, and iterative design — across 4-5 products to inform design decisions and identify design solutions to user and business problems.
- Created user flows, wireframes, high-fidelity mock-ups, and interactive prototypes to design a Billing System UI, a Digital Learning Platform UI, and an Instagram Auto-DM automation tool, from concept to execution.
- Built and maintained a Figma design system and style guide, applying consistent design principles and patterns to improve design consistency across products.
- Led design projects and mentored a team of 20+ designers, communicating design direction and rationale to cross-functional partners.

FEATURED CASE STUDY

Canara Bank — Website UI/UX Redesign

[Independent Case Study](#) · [Figma](#)

Problem	Canara Bank's website had poor usability and an outdated UI, making everyday banking tasks harder for users than they needed to be.
Research	Conducted user surveys, one-on-one interviews, and card sorting sessions to understand individual user perspectives and pain points.
Process	Translated research insights into user flows, wireframes, and interactive prototypes; created high-fidelity mock-ups, then ran usability testing and iterated the design based on feedback.
Outcome	Delivered a redesigned, user-validated UI with clearer information architecture and improved task flow.

PRODUCT DESIGN PROJECTS

Complete Billing System UI

[UI/UX](#) · [Figma](#) · [Billing System](#)

Researched, wireframed, prototyped, and tested a billing interface for invoice management, transaction tracking, and business operations.

Digital Learning Platform UI

[UI/UX](#) · [Figma](#) · [EdTech](#)

Designed and tested an e-learning platform interface focused on intuitive navigation and an immersive learning experience.

Athenura Auto DM Tool

[UI/UX](#) · [Figma](#) · [Automation](#)

Designed an Instagram automation dashboard for managing auto DMs, lead engagement, and audience interaction.
